

# CONSAFE

## SERIES Ø170

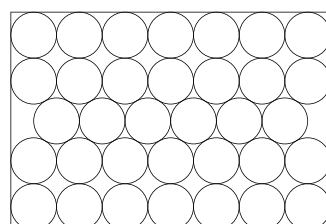

The Consafe pail combines many advantages. A simple design with four lid options depending on requirements. Optimum utilisation of the pallets ensures optimised transport. Responsible for this is its conical shape, which allows stacking inside each other (=CON). The pail does not require a clamping or locking ring and has UN approval (=safe). Available are 3 diameters for 12 filling volumes.

### 1 DESIGN - FOUR DIFFERENT LID OPTIONS

<b>1</b>	<p><b>CONSAFEX™</b> + high UN approval</p> 	<b>2</b>	<p><b>CONSAFE®</b> + UN approval</p> 
<b>3</b>	<p><b>STANDARD</b> + cost-efficient</p> 	<b>4</b>	<p><b>EASYLID</b> + easy to open and close, available upon request</p>
