

CONSAFE

SERIES Ø240

The Consafe pail combines many advantages. A simple design with four lid options depending on requirements. Optimum utilisation of the pallets ensures optimised transport. Responsible for this is its conical shape, which allows stacking inside each other (=CON). The pail does not require a clamping or locking ring and has UN approval (=safe). Available are 3 diameters for 12 filling volumes.

1 DESIGN - FOUR DIFFERENT LID OPTIONS

1	<p>CONSAFEX™ + high UN approval, available upon request</p> 	2	<p>CONSAFE® + UN approval</p> 
3	<p>STANDARD + cost-efficient</p> 	4	<p>EASYLID + easy to open and close, available upon request</p>
